RE: Documentation of other funding sources for the City of Stanton's  
I-JOBS Disaster Prevention Grant Application  
(Match commitment without FEMA funding)

Please accept this letter as our commitment of matching funds for the City of Stanton's I-JOBS Disaster Prevention grant application. Costs for the storm shelter portion of the Viking Center – as proposed in the I-JOBS application – have been estimated in conjunction with Architect Rick Emswiler, Morrissey Engineering, Septagon Construction and FEMA representatives. Total costs are \$850,000. The City of Stanton is requesting a Disaster Prevention grant in the amount of \$625,100. The City hereby agrees to provide the remaining \$224,900 to complete this project. Match funding will come from contributions raised by Stanton Friends, and/or cash provided by a USDA Rural Economic Development loan.
